

JFK (KENNEDY) BLVD. (PAVONIA AVE. TO ST. PAUL'S AVE.)

Jersey City, New Jersey

About the Project

Hudson County in coordination with the North Jersey Transportation Planning Authority (NJTPA) and the New Jersey Department of Transportation (NJDOT) are conducting an LCD study to determine appropriate improvements to JFK (Kennedy) Boulevard from Pavonia Avenue to St. Paul's Avenue. The project goals are to enhance safety and improve operations for all modes of transportation. Similar efforts were undertaken on other portions of JFK (Kennedy) Boulevard; one of these projects abuts the southern limit of this project.

Communication with the local officials, stakeholders, road users and community will be necessary to advise on the need of the project and the impacts that they may encounter on this heavily used roadway.

Get Involved

Members of the public are encouraged to participate in the study by attending meetings, becoming a stakeholder, and taking the community input survey on our website: <https://www.jfkblvdproject.com/survey>. Tell us how you use the section of JFK Boulevard between Pavonia Avenue and St. Paul's Avenue, and what improvements you would like to see in the future.

Contact Us

We encourage community members to voice their concerns and contribute suggestions. For questions or comments, please fill in the comment form on our website or contact one of the Project Team members below:
